PROFILE

Computer science graduate with C#/Unity development experience and full-stack finance and AI application projects. Combines software development skills with accounting and enterprise data management experience.

TECHNICAL SKILLS

Programming: Java, C++, C#, SQL, JavaScript, Python.

Tools and Platforms: Unity, Git, Plaid, Convex, React, Node.js.

RELEVANT EXPERIENCE

VR Developer - Internship

Besound Studios, Toronto, ON

January 2025-April 2025

- Developed C# application logic for a Unity-based VR training platform, implementing event-driven interactions, animation state machines and scene transitions.
- Collaborated with cross-disciplinary teams to prototype and test interactive simulations, debug features and analyze performance to improve usability and stability.
- Documented application architecture and system behaviors to support knowledge transfer and ongoing development.

PROJECTS

Personal Finance AI Manager

September 2026

- Built a full-stack finance application with React, TypeScript and Convex, integrating Plaid transaction syncing and AI-assisted categorization.
- Implemented budget and goal tracking, Clerk authentication, and offline transaction storage with service workers and IndexedDB.

Insurance Quote Agents

September 2026

- Built a JavaScript/Node.js insurance comparison prototype using the Web Speech API and rule-based extraction to turn spoken descriptions into structured risk profiles.
- Orchestrated parallel Playwright agents across four simulated carrier sites, normalizing coverage for comparable quotes; included extraction and end-to-end tests.

ADDITIONAL EXPERIENCE

Deal Analyst – Full Time

Dilawri Group of Companies, Mississauga, ON

April 2026-July 2026

- Reconciled 150+ transactions monthly and worked with cross-functional stakeholders to resolve pricing discrepancies, missing documentation and posting exceptions in CDK and One-Eighty.

Data Management Analyst - Internship

Transdev Canada, Brampton, ON

January 2024-May 2024

- Validated asset records in IBM Maximo and reconciled them against Excel using VLOOKUP and PivotTables, identifying variances and improving data quality and reporting reliability.

EDUCATION

Algoma University, Brampton, ON

Bachelor of Computer Science (Honours) | GPA: 3.9/4.0

2023-2025

University of Toronto, Mississauga, ON

Bachelor of Commerce in Accounting

2019-2023
